

# Hydra-Clean™

Ultra-Concentrated Liquid Carpet Cleaning Extraction Detergent

EXTRACTION

RTU pH 9.0-10.0

Residential &  
Commercial Carpets

Warranted Stain  
Resistant Carpets

Hydra-Clean completes the maximum soil removal, minimum residue cleaning process of the professional hot water extraction cleaning, virtually eliminating re-soiling issues common to many carpet cleaning solutions. Hydra-Clean allows you to use your solution pressure to remove soil that is deeply imbedded into the carpet pile with emulsifiers that hold the soil in suspension for easy removal.

If for any reason you are not thrilled with the performance of Hydra-Clean return it to your distributor and we'll get you a product that does.

Net Contents:  
One U.S. Gallon (3.78 liters)

CleanMaster Hydra-Clean is a liquid ultra-concentrated blend of solvents, builders and emulsifiers designed to tackle the challenges of today's professional carpet cleaner. Used in conjunction with your favorite HydraMaster prespray, Hydra-Clean completes the maximum soil removal, minimum residue cleaning process of the professional hot water extraction cleaning, virtually eliminating re-soiling issues common to many carpet cleaning solutions. Hydra-Clean allows you to use your solution pressure to remove soil that is deeply imbedded into the carpet pile with emulsifiers that hold the soil in suspension for easy removal. Hydra-Clean is safe to use on all colorfast synthetic carpet, warranted residential stain resistant carpets, and leaves a refreshing scent that says clean without overpowering. Hydra-Clean is a VOC compliant formula that contains the industry exclusive component Tritanol™ - an integrated blend of specialized encapsulating polymers, organic sequestrants, and surfactants. With the unprecedented cleaning power and performance of Tritanol™, you will experience deep restorative cleaning in high definition. It just works better! A gallon of Hydra-Clean is so concentrated it will make 320 gallons, or more, of ready-to-use cleaning solution and will clean up to 35,000 square feet of carpet.

Lot:

## Directions:

1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Select and apply the appropriate HydraMaster preconditioning pre-spray solution first.
3. For portable units; mix Hydra-Clean at a rate of 2 oz. per 5 gallons of water. In truckmount units; mix 1 quart of Hydra-Clean with 5 gallons of water to make a concentrated solution. Set your solution flow meter from 2 to 3 gph.
4. Extract carpet thoroughly making sure to slow down in heavy soiled areas and use a dry stroke to dry the carpet faster and return it to service quicker. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the RX-20 Rotary Extraction Tool. In furniture dense environments use the Evolution cleaning wand.
5. For faster drying, especially in humid environments, consider the use of an axial, centrifugal, or downdraft air mover after cleaning.

**Contents:** 2-butoxyethanol (111-76-2), sodium triphosphate (7758-29-4), tetrapotassium pyrophosphate (7320-34-5), proprietary surfactants, polymers, and fragrance.

## Instrucciones:

1. Siempre antes de la prueba todas las soluciones de limpieza en un área discreta de durabilidad antes de la aplicación.
2. Seleccionar y aplicar el acondicionamiento HydraMaster adecuada formación agraria solución en primer lugar.
3. Para unidades portátiles - mezclar Hydra-Clean a un ritmo de 2 oz. por cada 5 galones de agua. En truckmount unidades - mezclar 1 cuarto de galón de Hydra-Clean con 5 galones de agua para hacer una solución concentrada. Configurar el medidor de caudal de solución de 2 a 3 gph.
4. Extracto alfombra completamente asegurándose de que para frenar el fuerte en las superficies manchadas y utilizar un seco golpe para secar la alfombra más rápido y vuelva a ponerlo en servicio más rápido. Para una mayor limpieza, reducción de la fatiga, y más eficaz del suelo extracción, extracto con el RX-20 Rotary Herramienta de extracción. Muebles en entornos de alta densidad uso la evolución limpieza varita.
5. Para un secado más rápido, especialmente en ambientes húmedos, considere el uso de un axial, centrifugos, aire descendente o transportador después de realizar la limpieza.

## Precautions and First Aid:

Keep out of reach of children. Contact may cause skin and eye irritation. Wear gloves and safety glasses when handling to avoid any contact with eyes and contact with skin in concentrate form. Use only in well ventilated areas. In case of eye contact, immediately flush with plenty of water. If irritation persists, seek medical attention. In case of skin irritation, flush with plenty of water. If ingested, drink large quantities of water and seek medical attention. Remove to fresh air in case of inhalation. See Material Safety Data Sheet (MSDS): [www.hydrmaster.com/msds](http://www.hydrmaster.com/msds) for additional safety and regulatory information.
