KOOL GLIDE CARPET SEAM IRON

The Kool Glide Carpet Seam Iron is a revolutionary, lightweight, handheld electric tool that melts adhesive using a pre-programmed heating cycle, controlled by a state-of-the-art microprocessor. Precise amounts of adhesive and tightly controlled heating provide for a consistent low-profile seam. The tool never gets hot, so there is no danger of burns to the operator or to carpet. The tool never touches the adhesive, so there is no messy cleanup. This technology is especially useful in repairing holes in carpet and putting new seams in carpet.
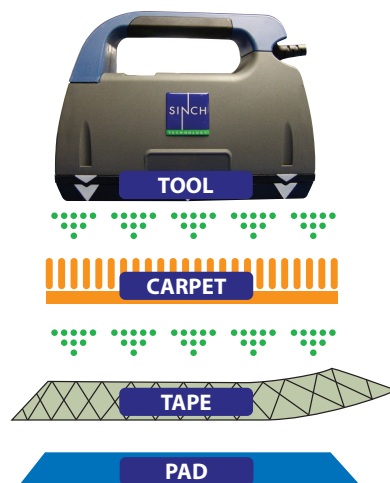

AK086

It's a SINCH

SINCH creates a powerful bond that can be removed minutes or years later, for easy repair or on-site rework.

- Simple, fast adhesion at the push of a button
- Bonding on-demand in seconds
- Instantly ready to use
- Safer operation - no fumes or danger of burns for the operator
- No messy clean-up (the tool never touches the adhesive)
- Smoke free
- No damage or discoloration to carpet due to heat

It's as Easy as 1, 2, 3

1 The hot melt seam tape is placed between the carpet and the pad.

2 With a push of a button, the tool instantly activates the adhesive.

3 With this state-of-the-art tape, the glue is precisely applied, ensuring a consistent bond. The carpet can be postitioned right up until the button is pushed. Rework a seam onsite, from the top of the carpet! Just activate the tool, melt the adhesive, and rework the seam.
