Dry Slurry

The industry leader and cleaning benchmark for alkaline extraction rinses, Dry Slurry is powerful enough to be used for one-step or two-step hot water extraction cleaning processes and yet gentle enough for use on 5th generation stain-resist nylon carpets. This economical powdered product can be used with truckmounts or portables on most synthetic fibers. Solvent-boosted formulation removes heavy suspended greasy soils, grime and prespray residue that others leave behind.

SPECIFICATIONS

- RTU pH: 9.6–9.9
- **Coverage:** One 6 lb. jar makes up to 1,040 gals. of RTU solution for approximately 400 sq. ft. per diluted gal.
- **Dilution portables:** 0.5 to 1.5 oz. per 5 gals. of water
- **Dilution truckmounts:** 3 cups per 5 gals. of water
