

Traffic Slam is a high concentrate pre-spray for carpets. This is a non-toxic free rinsing cleaner especially designed for the suspension and removal of heavy soils, grease, and soot build up. Traffic Slam is especially effective on heavily soiled Olefin. Traffic Slam has special emulsifiers that keep it fully active (as long as the carpet stays damp), even 1/2 hour before extraction. Excellent for removal of filter soil under drapes and doors.

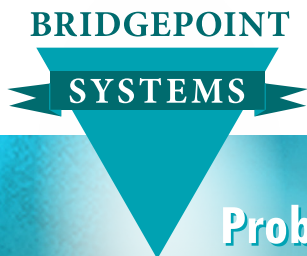

- Special surfactant blend attracts particulate and filtration soil.
- Blends of surfactants and alkaline builders eliminates the need for solvents in the formula.

### DIRECTIONS

To be used as a traffic lane prespray for heavily soiled carpets. Product should be extracted after use. Traffic Slam is not designed for use on 5th Generation stain-resist carpets. Traffic Slam is designed for use in the Hydro-Force sprayer and other types of pump or electric sprayers.

**For use with the Hydro-Force Sprayer:** Dilute 1 part Traffic Slam to 3 parts water in the 5 qt. container. The proper ready to use dilution is then achieved by the Hydro-Force, or pour concentrate into 5 qt. container without dilution and set HydroForce Revolution® knob at 1:32.

**For use with pump or electric sprayers:** Dilute 4 oz. Traffic Slam to 1 gal. hot water (1:32). For exceptionally heavy soil, dilute 8 oz. per gal. (1:16). Spray traffic lanes and spotted areas until damp. Extract with your normal process.

Available in Gallons and 4 x 1 gallon cases

RTU pH: 11  
Part # CC20GL
