

BIO Charge

Premium Deodorizing Bio-Enzyme Additive

Bio-Charge

Bio-Charge is a complete solution for all odor problems. It is a highly concentrated bacteria-enzyme formulation designed for addition to Bridgepoint Premium Odor Counteractants to eliminate many odors.

Contents: One U.S. Gallon (3.79 Litres)

- X Residential Carpet
- X Upholstery
- X Oriental Rugs
- X Restoration
- 7 RTU pH

X = Primary Use ✓ = Secondary Use

- Highly concentrated bacteria formulation designed to eliminate odors from urine, mold, mildew, organic rot, vomit, skunk, and protein fire residue, and can assist in removing all organic-related staining.

- Breaks down starches, carbohydrates, tissue, fats, grease and oils.

- Effectively deals with a wide range of odors in carpet and other textiles, and on all colorfast hard surfaces.

DIRECTIONS

1. Always test solution in an inconspicuous area of surface for colorfastness.
2. Mix one part Bio-Charge with eight parts warm or hot water (16 oz. solution/gallon of water) into a pump-up, trigger, or pressure sprayer. Shake well before use. If desired, add 2 ounces of HYROCID, SPICE AIR, SPRING MORNING, NEUTRAL AIR, APPLE AIR, or MEADOW FRESH to each gallon of your mixed solution.
3. If applying through a Hydroforce Sprayer, add concentrated directly to Hydroforce sprayer. Use standard tip and apply.
4. Saturate spray mixed solution onto contaminated area. In severe odor situations, cover treated area with plastic so as not to allow solution to dry.
5. With heavy contamination consider injecting solution into carpet and carpet backing
6. Allow solution to dwell from four hours to 24 hours.
7. Use mixed solution within 10 days for maximum effectiveness.

Product Consolidation: The Bio-Charge formulation has effectively replaced several products you may have used in the past. Bio-Charge is more than twice as concentrated as Kleen -N- Treat and Rinse -N- Treat. Adjust your normal dilutions accordingly. Neutral Air is the fragrance that was used in Rinse- N- Treat. Create your own improved Bio-Enzyme Decontaminant with your choice of Odor Counteractant by following the directions in part 2 above.

INGREDIENT DISCLOSURE

Water, C9-11 Alcohols Ethoxylated, Tetrasodium EDTA, Viable Bacteria Cultures, Benzisothiazolinone.
