& Upholstery

# Red Break 1™

One-Part Red Stain & Colored Beverage Stain Remover

**Red Break 1** is a revolutionary breakthrough in stain removal science. Utilizing reducing and polymer technology, **Red Break 1** alters the structure of difficult stains by removing them or making them invisible. **Red Break 1** is a one part system that requires no mixing and no waste of product.

If for any reason you are not thrilled with the performance of **Red Break 1** return it to your distributor and we'll get you a product that does.

**Important notice to purchaser:** The manufacturer and seller warrant that the chemical contained herein conforms to its standard specifications. Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. Before using, user shall determine the suitability of the product for the intended use and user assumes all risk and liability whatsoever in connection therewith. The product contains oxidizers and may alter or remove the original color of the carpet it is being applied to. Use only as a last resort and with the customer's permission and understanding of this risk.

### Directions:

1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Clean the stained area with normal cleaning processes prior to the application of this product. Take an extra dry vacuum pass to remove as much moisture as possible.
3. **Red Break 1** is a one part solution. Liberally apply solution straight to the stained area.
4. Allow 30 seconds to two minutes of dwell time. Many stains are removed simply by extracting the area with clear water at this point.
5. If residual discoloration remains, reapply straight solution liberally directly to the stain.
6. Accelerate activity with heat. If using a low pressure, high volume steam generator such as a wallpaper steamer, simply allow steam wand to sit on treated area. Check stain periodically every 30 seconds to 2 minutes. If using a steam iron, cover stained area with a wet white, colorfast cotton towel. Apply steam heat from iron set at the lowest steam temperature. Lift and move the iron every 20-30 seconds and check the area.
7. When the stain has completely disappeared, simply extract the area with clear water. If a slight yellow discoloration remains, simply allow the area to completely dry and the discoloration will usually go away.
8. Use caution when using a product of this type. Color loss or fiber damage caused by excessive heat can be avoided by being diligent in periodically checking the area.

### Instrucciones:

1. Red Break 1 es una solución de una parte. Aplique la solución directamente a la zona manchada.
2. Espere 30 segundos a dos minutos de tiempo de permanencia. Muchas manchas se eliminan simplemente mediante la extracción de la zona con agua limpia en este punto.
3. Si queda decoloración residual, vuelva a aplicar la solución directamente a la mancha.
4. Acelere la actividad con calor. Si se utiliza un generador de vapor de baja presión y alto volumen, como un vaporizador para papel tapiz, simplemente coloque el tubo de vapor en el área tratada. Compruebe mancha periódicamente cada 30 segundos a 2 minutos. Si se utiliza una plancha de vapor, cubra el área manchada con una toalla blanca mojada que no se destiña. Aplique calor de vapor de la plancha en la temperatura más baja posible. Levantar y mover la plancha cada 20-30 segundos y revisar el área.
5. Cuando la mancha ha desaparecido por completo, sólo tiene que extraer el área con agua limpia. Si una ligera coloración amarilla sigue presente, simplemente permita que el área se seque por completo y la decoloración por lo general desaparece.
6. Tenga cuidado al usar un producto de este tipo. Pérdida de color o daño de las fibras causado por el calor excesivo puede evitarse por ser diligente en la comprobación periódica de la zona

### Precautions and First Aid:

Keep out of reach of children. Contact may cause skin and eye irritation. Wear gloves and safety glasses when handling to avoid any contact with eyes and contact with skin in concentrate form. Use only in well ventilated areas. In case of eye contact, immediately flush with plenty of water. If irritation persists, seek medical attention. In case of skin irritation, flush with plenty of water. If ingested, drink large quantities of water and seek medical attention. Remove to fresh air in case of inhalation. See Material Safety Data Sheet (MSDS); [www.hydramaster.com/msds](http://www.hydramaster.com/msds) for additional safety and regulatory information.

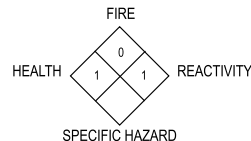

### Precauciones y Primeros Auxilios:

Mantener fuera del alcance de los niños. El contacto puede causar irritación cutánea y ocular. Use guantes y gafas de seguridad al manejar para evitar cualquier contacto con los ojos y el contacto con la piel en forma de concentrado. Use sólo en áreas bien ventiladas. En caso de contacto con los ojos, lávelos inmediatamente con abundante agua. Si la irritación persiste, busque atención médica. En caso de irritación de la piel, lavar con abundante agua. Si se ingiere, beber grandes cantidades de agua y busque atención médica. Sacar al aire libre en caso de inhalación. Ver Hoja de Seguridad (MSDS); [www.hydramaster.com](http://www.hydramaster.com) / MSDS para mayor seguridad y normativas.

**Contents:** sodium bisulfite (7631-90-5), ammonium hydroxide (1336-21-6), ethanol (64-17-5), water (7732-18-5), proprietary polymers, proprietary surfactants
