

## Meth Remover Part 1 & Part 2

Apple Environmental Meth Remover® is a 2-part cleaning system that is designed specifically for the removal of methamphetamine residue. Meth Remover is user and environmentally friendly, yet tough on meth. Simply mix equal parts of Part 1 and Part 2 and apply using your favorite applicator including a pump, foaming, paint, electrostatic sprayer or fogger. Thoroughly rinse solution off surfaces to complete meth removal.

**Apple Environmental Meth Remover® is:**

- Water based for easy clean up
- Non-toxic
- Non-corrosive
- Phenol free
- Bleach free
- Biodegradable

Meth Remover Part 1 #1669-4275  
Meth Remover Part 2 #1660-4377

### Be sure to stock up on PPE gear!

Stay safe and be prepared by having all of the proper equipment necessary to perform your job without injury or health concerns.

## Tough on Meth

*Easy on the Environment*

Methamphetamine decon requests are on the rise. We've teamed up with the market leader, Apple Environmental, to offer safe and effective decontamination solutions for this growing problem.

*Lab Tested. Field Perfected.*
