C100

The C100 is a light duty impregnated filter media with 100 grams of carbon per sq. meter. They are ideal for removal of odors in commercial or light industrial applications.

- ▶ **MERV-8**
- ▶ **Carbon impregnated filter media**
- ▶ **Durable high wet strength beverage board frame**
- ▶ **Rust resistant galvanized dipped**
- ▶ **100 grams of carbon per square meter**

ITEM	SIZE
A12349	24" x 24" x 2"
A17738	16" x 16" x 2"
55099	12" x 12" x 2"
A90011	16" x 16" x 1"
A41684	24" x 24" x 1"

C200

The C200 is a medium duty impregnated filter media with 200 grams of carbon per sq. meter and for removal of odors in commercial or medium industrial applications.

- ▶ **MERV-8**
- ▶ **Carbon impregnated filter media**
- ▶ **Durable high wet strength beverage board frame**
- ▶ **Rust resistant galvanized dipped**
- ▶ **200 grams of carbon per square meter**
- ▶ **2 times the amount of carbon as compared to the C100**

ITEM	SIZE
1646-4481	16" x 16" x 2"
1644-4489	16" x 16" x 1"
1645-4480	24" x 24" x 1"
1640-4586	24" x 24" x 1"
1627-4692	18" x 24" x 2"
1620-4796	16" x 24" x 2"

ACTIVATED

Activated Carbon works via a process called adsorption to utilize carbon's natural ability to attract and hold gas and liquid molecules on its surface. Ideal for the removal of odors in commercial or heavy industrial applications.

- ▶ **Captures a wide variety of volatile organic compounds (voc's)**
- ▶ **Utilized extruded activated carbon-carbon pellets manufactured to uniform size helps to ensure maximum airflow and maximum contact**
- ▶ **One pound of carbon has 534,438 square yards of available surface – equivalent to the area covered by more than 100 football fields**
