

HYDRO-FORCE SX-12

**NEWLY
REDESIGNED**

SX-12 Hard Surface Cleaning Tool

FAST

Aerodynamically engineered radial vacuum line creates a laminar-flow vortex in the cleaning head that allows the SX-12 to remove water twice as fast as competitive models. Toe-adjustable vacuum relief lets you adjust the suction strength on the fly. Low profile allows the unit to fit under toe kicks. Easy access inline filter makes cleaning the filter a snap.

DURABLE

Quality components will handle operating pressures from 700 to 1,500 PSI so you can blast away oily deposits. Stainless steel handle and high-tech polymer casing will take a beating and ask for more.

ERGONOMIC

Handles are spaced shoulder-width and allow you to use side-to-side or front-to-back cleaning strokes. Lightweight construction makes it feel like the machine is floating along the floor. Tool length is comfortable for users of all heights. Easy gliding on surfaces for low fatigue usage. Works on uneven stone or tile surfaces or smooth concrete.

- Works with front-to-back and side-to-side motion
- Light Weight
- 12" Cleaning path
- Simple 2 piece head and brush construction
- Adjustable vacuum relief.
- Easy-pull trigger

**Part #
1610-8235**

Toe-adjustable vacuum break to ensure you have the correct vacuum pressure.

Head creates laminar flow vortex leaving floors drier than ever before.

Strong stainless steel upper with ergonomic shoulder width handles.

Cleans a 12" path and glides easily across the floor with no fatiguing.
