

# 2112 PRESPRAY

Concentrated Prespray

Information Sheet

This ultra-concentrated powder prespray is ideal for cleaning heavily soiled traffic lanes and overall carpet preconditioning. It has a blend of alkalinity, non-ionic surfactants, and glycol ether with no odor to go after oils. The low odor of the solvent allow the cherry lemon blend to stand by itself. It is unique as it has enzymes that work quickly and sodium percarbonate that works throughout a normal dwell time. The blue spec accelerant speeds up the oxidation process. The 2112 Pre-spray is packaged and priced for cleaners who want to save money and time with bulk purchases.

## DIRECTIONS

For normal cleaning, mix 2 oz. per gallon (1:64). For heavy soil, mix 4 oz. per gallon (1:32). Hydro-Force Injection Sprayer, mix 16 oz. per Hydro-Force 5 quart container (1:10). Use only hot water (120 –150 degrees Fahrenheit) solution should be applied to carpet with a non-atomizing sprayer as soon as possible. Spray the carpet and allow 10 to 15 minutes digesting time. Then extract and rinse.

## APPLICATION CHART

- Synthetic Carpet ★
