

# NEUTRALIZING EXTRACTION RINSE

#2665-3408

## NEUTRALIZING EXTRACTION RINSE

The Neutralizing Extraction Rinse contains a unique cleaning ingredients that makes it more effective at soil removal than conventional neutralizing rinses. It is safe and effective for all synthetic as well as all water safe natural fibers. Neutralizing Extraction Rinse works effectively with any type of extraction equipment – truck mounted, portable, or walk behind.

- Contains added ingredients for added cleaning power as compared to conventional acid rinses.
- Stabilizes color, prevents browning and yellowing, and pH neutralizes residues.
- Leaves a soft, luxurious fresh feeling to the carpet fiber.
- Rinses out soil and residue, and limits re-soiling.

### DIRECTIONS:

Neutralizing Extraction Rinse works best when used in conjunction with Alkaline Pre-spray or High Alkaline Pre-spray. Neutralizing Extraction Rinse can be safely used on all synthetic fibers, and all wet cleanable natural fabrics.

tank for heavy soiling. Dilute 2 ounces of Neutralizing Extraction Rinse with five gallons in portable tank for maintenance cleaning.

If used in a walk behind extractor, mix two ounces of Neutralizing Extraction Rinse with one each gallon of water.

The carpets will generally dry overnight. Use of fans will speed up drying.

When used with a portable extraction machine: Dilute 4 ounces of Neutralizing Extraction Rinse with five gallons of water in portable
