12.5 - 12.9

Available in:

Gallons & 4 x 1 gallon cases - # 2644-2119

5 Gallon Pails - # 2651-3541

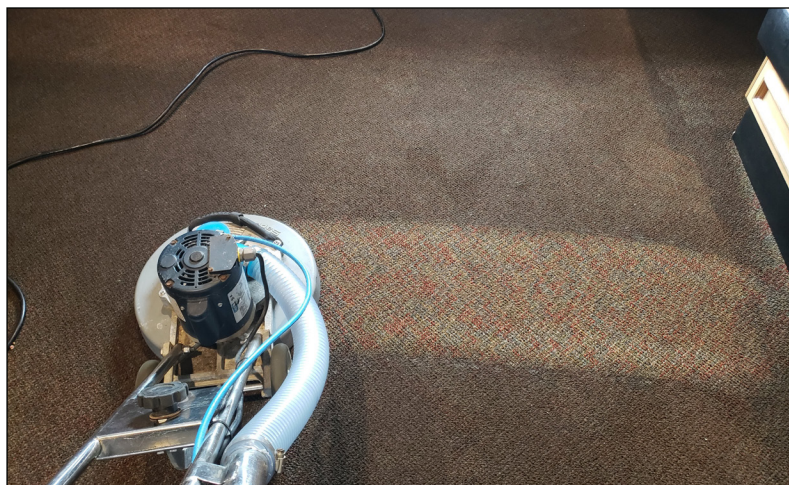

55 Gallon Drums - # 2652-3542

Inferno Degreasing Prespray is a high pH cleaner fortified with alkalinity, solvents, and surfactants, as well as a special soil attracting hydrotrope. These ingredients work together to emulsify all types of soils and oils which makes for easy extraction. In addition, the surfactants are key in helping the solution penetrate to all parts of the fiber, or other porous surfaces being cleaned. The hydrotrope is especially effective on particulate soils such as soot or filtration soiling, making Inferno one of the most well rounded and effective restorative cleaning and degreasing pre sprays, for all types of situations.

- Designed to be used as either stand-alone cleaner or booster.
- Outstanding at removing oily soils including soot from a variety of surfaces.
- Works well on polyester carpets, concrete, tile & grout and other surfaces not damaged by high alkalinity.

DIRECTIONS

Dilute one part Inferno to 4 parts of water for most difficult issues. As soiling issues diminish you can dilute up to 1 to 64 and expect good results.
