PROTECTION

Compact Air 200 Series PAPR

No Worry, No Guess Work

The North Compact Air 200 Series Powered Air Purifying Respirator (PAPR) lets you know when the battery is low or your filters are clogged.

Now you can continue working as long as possible without trying to guess when the battery will need recharging or your filters need to be changed. The North Compact Air 200 Series PAPR includes multiple alarms, giving you the heads up you need to work as long as possible without fear of losing power.

Hear It, See It, Feel It: Triple Alarm System

A system of three different alarms (audible, visual and vibration) will alert the user at 10% remaining battery life, increase to a continuous audible alarm at 5% of remaining battery life, plus alarm when filters are blocked or clogged. The audible alarm is located near the breathing tube so sound will travel to the workers' zone of hearing.

An additional vibratory alarm also goes off, assuring that even those workers who are hearing impaired or are in extremely noisy environments will be alerted to the low battery or clogged filter. The third alarm is a LED light that will let the worker know if the battery is low or if the filter needs changing.

- Triple alarm system creates an audible, vibratory and visual alarm to warn workers of battery life and/or filter clog
- Vibratory alarm that can be felt even through welding jackets; warns workers who are hearing impaired or in high noise environments
- Two visual alarms: one for low battery and a separate one for a clogged filter; workers will know the alarm reason and maintain the PAPR accordingly
- Lightweight for improved comfort and longer wear
- The same unit can be used for either tight facepieces or loose fitting hoods to accommodate different needs and preferences
- Airflow is automatically adjusted to meet OSHA and CSA CFM requirements

▲ WARNING! North and Honeywell Respiratory equipment should only be used in conjunction with the manufacturer's instructions. Failure to follow such instructions could result in serious injury, illness or fatality.

REUSABLE AIR PURIFYING RESPIRATORS

5583P100

North 5500 and 5500 Convenience Packs

- 5500 Half mask is elastomeric and silicone blend for a soft comfortable fit
- Convenience packs include – 5500 Half mask, cartridges and/or filters for convenience
- Cartridges and filters are replaceable so facepiece can be re-used
- Ideal as an economical respirator for sub-contractors, plant guests and occasional users
- Elastomeric with a silicone blend is economical and softer than other elastomeric masks
- Can be adapted to PAPR or Supplied Air to offer flexibility in the workplace

SKU	Size	Description
5580	Sm/Med/Lrg	5500 w/7580P100 for particulates
5501N95	Sm/Med/Lrg	5500 w/N75001 OV and N7506N95 prefilter for painting and pesticide applications
5583P100	Sm/Med/Lrg	5500 w/7583P100 OV AG for heavy spray applications and industrial use
550030	Sm/Med/Lrg	Economical half mask

770030

North Premium Silicone Half Mask

- 100% Silicone facepiece is flexible, to provide a soft, secure and comfortable fit
- Dual elasticity headstraps provide a secure and flexible fit
- Wide contoured sealing area fits a greater variety of facial types
- Variable thickness in sealing area provides the optimal amount of seal on each area of the face for superior comfort without sacrificing fit
- Can be adapted to PAPR or Supplied Air to offer flexibility in the workplace

SKU	Size	Description
770030S	Small	Premium Silicone Half Mask
770030M	Medium	Premium Silicone Half Mask
770030L	Large	Premium Silicone Half Mask

LOOSE FITTING HEAD COVERS

Primair 100 Series

- Ideal for pharmaceutical and other light duty industries, NIOSH approved with an APF of 25
- Manifold directs air flow to the front lens, not in worker's eyes
- Multiple size adjustments for a comfortable and personal fit
- Hoods are durable and lightweight, made from spun bond polypropylene
- PA101 is less bulky than full hoods; sealing under the chin, without covering the ears

SKU	Size	Description	Packaging
PA101S	Small	Primair 100 headgear with Primair loose fitting head cover	Each
PA101M	Medium	Primair 100 headgear with Primair loose fitting head cover	Each

PA101

Primair Plus Hoods

- Adjustable bib length or cotton neck seal; workers can customize to their liking or need
- Manifold directs air flow to the front lens, not in worker's eyes
- Multiple size adjustments for a comfortable and personal fit
- North Primair Plus is a full, spun bond polypropylene hood available coated and uncoated: coated hoods provide incidental protection from occasional splash
- Peel-away window is available (item # PA105) to protect the lens from splatter, extending the life of the lens

SKU	Description	Packaging
PA111	Primair 100 headgear with Primair Plus hood	Each
PA131	Hood with cotton neck assembly for Primair 100 headgear	Each
PA231E01	Hood with cotton neck assembly for Primair 200 headgear, includes Fibre-Metal E2 hard hat and carbtex cover for protection during welding and grinding	Each

INDUSTRIAL SELF-CONTAINED BREATHING APPARATUS (SCBA)

An Affordable SCBA with the finest respiratory protection

Sperian is now Honeywell

888888

The Survivair Cougar™ meets the demands of industrial users who want the finest respiratory protection against environments that are Immediately Dangerous to Life or Health (IDLH). The Survivair Cougar is designed to be a basic industrial unit, yet provides superior safety and comfort for industrial needs.

Sperian Survivair Cougar™ SCBA

- Silicone rubber facepiece provides unsurpassed comfort and durability, even in extreme heat or cold. Won't oxidize or react with ozone. Also provides better sealing ability for improved comfort and fit. Five-strap head harness and skirt are available in 3 sizes (TwentyTwenty® Plus facepiece). Available in small and standard sizes in black (Classic™ facepiece)
- Optional headnet mesh-style head harness
- First stage regulator has minimal moving parts, dramatically enhancing reliability while reducing maintenance costs. Choice of three low air alarms – bell, plain whistle, or warbling whistle
- Second stage regulator has compact, low profile; Survivair Air Klic™ fastening system; first-breath-on; better downward vision for less chance of damage; allows attachment in any orientation; regulator holder on waist strap allows regulator to be kept in stand-by mode
- Survivair Mighty-Light® backpack is one of the lightest, easiest to use, and most comfortable backpacks in the industry; no tools required – no bolts or screws on harness for quick, easy disassembly and assembly

SKU	Description

INDUSTRIAL SELF-CONTAINED BREATHING APPARATUS (SCBA)

Survivair Puma™ is the first NIOSH-certified, OSHA-compliant, hooded pressure demand SCBA designed for users with street glasses or facial configurations that are hard to fit with a conventional facepiece.

An SCBA designed for hard to fit users

Sperian Survivair PUMA™ SCBA

- The Survivair Puma is a Survivair Cougar™ with a tight-fitting hood with a neoprene neck seal and is rated for entry into IDLH environments
- No need for spectacles kits — the user can wear normal street glasses (although sports straps on the temples are useful to keep the glasses in place while donning)
- Hood is made from Challenge® NXT barrier fabric (fluoropolymer films laminated to aramid substrates) for excellent permeation resistance; lens is made from 10 mil FEP Teflon
- Flexible neoprene neck seal provides excellent protection against contaminants in IDLH atmospheres
- Factory-installed silicone nose cup; available in 3 sizes; reduces fogging and CO₂ buildup in hood

SKU	Description
777777	Survivair Puma

Stock configuration includes: Survivair Cougar/Puma, 2216 psig (153.8 bar), plain whistle alarm (22PW). 2216 psig (153.8 bar), 30-minute aluminum cylinder, without locking collar (915141). Survivair Puma hood with medium nose cup (968006)

Sperian is now Honeywell

777777

Sperian Survivair PANTHER™ SCBA

- High heat and flashover industrial unit provides protection from unforeseen circumstances in the industrial market
- Mighty-Light backpack and lumbar pad is comfortable and easy to use
- TwentyTwenty Plus – available with silicone strap, Kevlar® mesh headnet or classic silicone
- Choice of 3 low air alarms: bell, plain whistle and warbling whistle for choice of preference
- Supplied Air Attachment option allows air to be supplied from a remote source. Long duration escape cylinder
- Communications options clear and audible communication for noisy environments. Includes voice amp and hard wired radio systems.
