

WARNER™
TOOL

Putting Quality and Innovation in Your Hands™

A Category Leader Since 1927

For more than 70 years, contractors, homeowners and retailers have learned to depend on tools that carry the Warner brand. We've earned that trust by keeping our focus on tools that will help customers do a better job in construction and remodeling. We continuously strive to find innovative ways to provide the added value you have come to expect from Warner. In short, we are committed to developing new products and programs for tomorrow, today.

To our retail customers, we thank you for your support. Our pledge to continually improve customer service has not wavered. With our rapid response system, we have been able to deliver 99% of our orders on time and complete. Our goal, however, remains 100%. We're proud of the quality we offer and hope you see us not just as a supplier, but as a category leader.

For the professional men and women who earn their pay in the construction trades, thank you for putting your trust in the Warner brand. It is, after all, the quality of your work which makes each of us in this industry proud. Though our tools are only a part of what helps you with your day-to-day tasks, you can always be assured we are the brand you can trust.

For the homeowner that likes to do it yourself, you can select the same quality tools as the professional or our value-priced tools that are designed for the Do-It-Yourselfer.

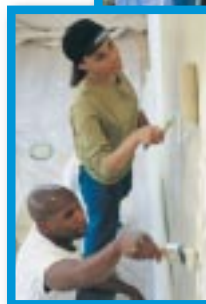

We take pride in all the products we produce for our customers and are committed to continuously improving Warner value, service and innovation.

Another Innovative Tool for the Professional

Professional contractors told us the two most important features in selecting a putty knife or scraper were blade flexibility and a comfortable handle. The ProGrip²™ Series was developed to deliver professional quality and performance on both counts.

The ProGrip² Flexibility System uses color-coded handles to identify Stiff, Flex, Full Flex and Flex Rated tools. Customers will be able to select the right flex every time. Scraping tools feature handles with a ribbed finger grip and are curved to fit the palm for better pushing control.

- Soft grip handle
- High-quality carbon steel blades
- Full tang for maximum strength
- Blades secured to handle
- Guaranteed for life
- Patents pending
- Made in U.S.A.

Red Handle Insert

Heavy-duty blades provide maximum strength and have a chisel edge ground at a 16° angle. It is the optimum angle for fine scraping and shaving with less gouging or chipping. The 5-in-1, 6-in-1 and 8-in-1 Glazier Knives will also squeegee paint rollers. Standard blades are .060" thick and heavy-duty blades are .080" thick.

Use 1¼"-1½" knives to apply spackle, putty and for detail work in small areas.

Use 2"-3" knives for patching, touch-up and heavy-duty scraping.

Use 4"-6" knives for taping drywall joints and large surface filling.

Use Glazier Knife as a multi-purpose tool to scrape, spread, clean and glaze.

ProGrip², Hammer Cap™ color coding and icons are trademarks of Warner Manufacturing. Patents pending.

Orange Handle Insert

Have you ever watched a contractor go through a rack of knives testing the blade flex? Professionals often test knife after knife looking for that special feel. That's why Warner has introduced Flex Rated Broad Knives. It's an industry first, four standardized flexes, so the contractor can buy the same feel every time. Guaranteed.

Blades on these ProGrip2™ tools are hollow ground to be progressively more flexible, from #1 to #4. Blades are selected to meet the exact specifications of each flex level, so customers get the same flex every time.

Ergonomic handles are wider, flatter and extra large. The larger size enhances both control and comfort. XL size also fits larger hands and reduces fatigue.

- Guaranteed flex ratings
- Soft grip XL handle
- High-quality carbon steel blades
- Full tang for maximum strength
- Blades secured to handle
- Extra large Hammer Cap™ models

600 Series Putty Knives and Scrapers

Warner Quality— Craftsmanship You Can Trust

If you're a professional who likes the feel of wood-handled tools but wants the performance of today's technology, the choice is Warner. The 600 Series offers the same high-quality blades as the ProGrip® Series, but with hardwood handles. Rosewood-colored handles are laminated and then pressure treated with resin to be moisture resistant. Won't swell or crack. Blades are made from .050", .060" and .080" thick carbon steel.

600 Series Features:

- Blades are made of #1074 high carbon-grade steel
- Hollow-ground, heat-treated and annealed for toughness
- Blades polished and buffed to high luster finish for easier application and cleanup
- Full-tang design for maximum strength
- Brass rivets and eyelets mechanically lock handle to tang so it can't come loose

ProCut™ and 180 Series Putty Knives and Scrapers

ProCut

Ground and polished high-carbon steel blades are matched to molded handles creating exceptional tool values. Blades are .050" and .035" thick and are hollow ground to put the correct amount of blade and pressure on the work surface.

Handle is an ergonomic design molded of polypropylene to a full-tang blade. Poly handle is comfortable and chemical resistant.

Carbide 100X™ Paint Scrapers

"Best New Product" in 1999
American Painting Contractor Magazine

"Best New Product" in 2000
Today's Homeowner Magazine

100X Paint Scrapers with Carbide Blades

How can a Carbide 100X Blade be 10 times sharper than hardened steel? Simple. Warner uses a special grade of tungsten carbide on 100X Paint Scrapers because it is extremely hard and durable. In fact, the softest grade of tungsten carbide composite starts where steel stops.

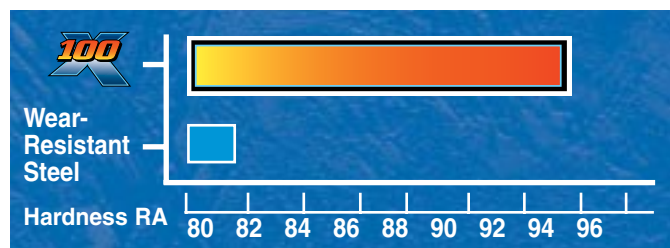

Carbide 100X Blades are diamond ground to produce an edge 10 times sharper than steel! These blades will scrape more paint, faster and cleaner than any standard, hardened steel blade! That's the performance which has pushed 100X Paint Scrapers to the top of the "most wanted" list in the Warner line.

Affordable Scrapers and Blades

Good quality at an economical price. Ideal for light duty, home projects and more. Rugged, comfortable-to-use scrapers have plastic PistolGrip™ handles that arch up for proper leverage. Blades are high-carbon steel, industrial ground, easy to replace and can be re-sharpened as needed.

Choice of two or four scraping edges depending on blade type. Multiple scraping edges save sharpening time to help get more work done in less time.

Furniture Refinishing Tool

All-plastic tool is designed for scraping chemically softened finishes. Has radiused edges along the sides for removing material from round chair legs, railings and dowels. The ribbed sides of the blade help collect and hold residue so it doesn't get redistributed over scraped surfaces. Flared corners aid in getting into cracks and crevices. Plastic tool also makes effective scraper for wallpaper.

Strip 'N' Clean™ Scrapers for the Biggest, Toughest Jobs

Heavy-duty scrapers are made for professionals tackling big scraping jobs—from paint to floor tile. Great for removing adhesives, ceramic wall tile, asphalt tile, carpeting and various industrial applications. Featuring die-cast aluminum scraping heads for maximum blade rigidity and handles of steel or fiberglass with comfortable nonslip grips. The #798 Head-Only Scraper can be used with any standard threaded pole.

794 PRO	6" Blade, Blue Steel, Single-Edge
795 PRO	8" Blade, Blue Steel, Single-Edge

3½" 4" and 5" Scrapers

Industrial-ground carbon steel blades and big, beefy scrapers can take on practically any scraping job. Tools are designed to deliver maximum leverage on wall and floor surfaces. Multi-purpose scrapers tackle anything from wax buildup to dried adhesives. Scraper #690 is a popular tool used in a wide variety of industries. The #694 Safety 1st™ Scraper is designed for home or light-duty use and the handle is threaded to fit any standard extension pole.

Scrapers are packaged with the blunt edge of the blade exposed. Reverse the blade to expose the sharp edge.

10-in-1 and Hawkbill Knives

10-in-1 Folding Tools

They're another Warner innovation—performance that you carry in your pocket. Folding Tools feature stainless steel blades in a secure lockback system. All have a reversible thumb knob for one-hand easy opening and spring-loaded lock for closing.

Nylon handles resist chemicals and solvents and are textured for a nonslip grip. End caps are nickel-plated steel for setting nails or light hammering.

#681
Contractor's Blade
Patent #5,979,058

THE CONTRACTOR'S BLADE™

Designed for the drywall contractor—this tool spackles, scores, saws, scrapes, pounds, trims, rasps, cuts, putty's and cleans! In fact, it's the only multipurpose contractor's tool that folds up!

- Stainless steel blade has two cutting edges, plus a saw edge.

Item

Trim and Hobby Knife

Utility Knives

Utility Knives feature heavy-duty, die-cast zinc or aluminum housings with ground and honed high-carbon steel blades. Three styles are available: Side or Top Trigger release designs allow blade to be retracted for safety. While the Fixed-Blade version securely clamps the blade in a cutting position. #350 Side Trigger Knife has four locking blade adjustments. Side Trigger Knife accepts all Warner Utility Blades, including the #362 with a center mounting hole.

Unique to the line is the ProCut™ Rasp 'N' Knife which features a zinc body die cast to double as a drywall rasp. A special safety feature of the #566 Safety Utility Knife is a spring-loaded, self-retracting blade. Pressing the trigger exposes the blade. Blade retracts when trigger is released.

15411	Swivel Pot Hook, 12/Clip Strip
412	6" Handy Pot Hooks, 2/Card

MISCELLANEOUS

Warner's Tack Cloth is the last step before final finish. Cloth collects dust, stays tacky. Economical Plastic Gloves are useful on every job.

Saving knees is the job of Warner Knee Pads. They're essential for refinishing floors, laying tile and more.

Item No.	Description
468	Tack Cloth
463	Plastic Gloves, One Size Fits All, 6/Bag
950	Knee Pads, Solvent-Resistant Black Polypropylene, 1" Elastic Straps with Velcro® Closure

These Specialty Tools Make Jobs Go Faster—and Easier

Unique Graining Tool allows you to put beautiful wood grain finishes on any non-wood surface. Tool comes with full instructions.

Also part of any painter's array of tools are the Mini Roller, Paint Edger and "Bender" Paint Pad. These specialty items paint the areas other rollers and brushes can't. The Paint Can Pour Spout snaps onto one-gallon cans, eliminating paint from running down the side of the can. Plus, the saw tooth edge helps to remove excess paint from your brush.

Taping Knives

Warner offers a wide range of Taping Knives. Typically the 6" and 8" knives are used for setting tape and the 10"–12" blades are used for applying finish coats. Blades are supported with aluminum or steel backings.

Taping Knife Features:

- Heat-treated and annealed for blade tension and toughness.
- Blue steel blades are polished to high luster for ease of application and cleanup.

Professional Aluminum Backing Plate

Aluminum backing plates provide blade rigidity while making these knives up to 40% lighter than standard taping knives. They provide greater comfort and reduce fatigue. Hollow poly handle is molded to the extruded aluminum backing plate so it can't come loose. Blade flares out at edges to reach into corners. Blue steel or stainless steel blades. Lightweight poly handles.

TAPING KNIVES – POLY HANDLE

Item No.	Description
746	PRO 6" Taping Knife, Blue Steel
748	PRO 8" Taping Knife, Blue Steel

254 PRO	Replacement Head for #218, Head Only
255 PRO	Replacement Pole for #218, Pole Only
256 PRO	Pole Sander Head with Female Threaded

Saws

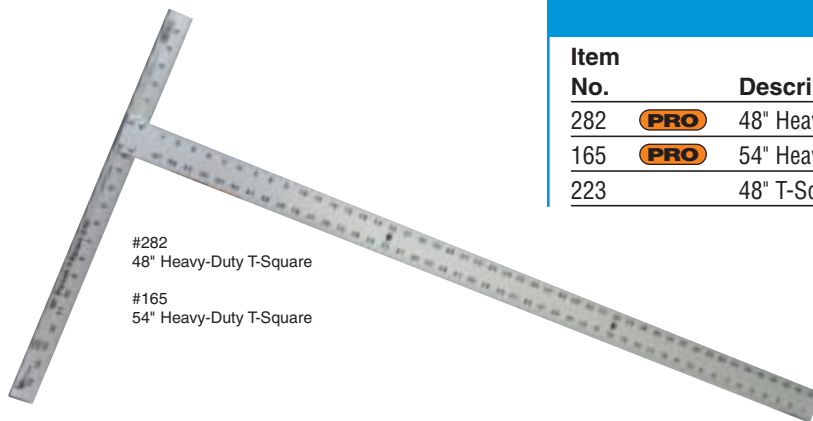

ProCut™ Drywall Saw has Warner's sawtooth grind resulting in needle-sharp, long-lasting teeth. Six and one-half inch blade is extremely stiff with a chisel point. Ergonomic grip for comfort. The Warner Keyhole Saw is the value choice for a small multipurpose saw.

SAWS	
Item No.	Description
225	Keyhole Saw, 6" Blade, Plastic Handle
625 PRO	ProCut Drywall Saw, 6½" Blade
141 PRO	ProCut Keyhole Saw, 6½" Blade, Wood Handle
220 PRO	Drywall Saw, 15" Blade, Hardwood Handle

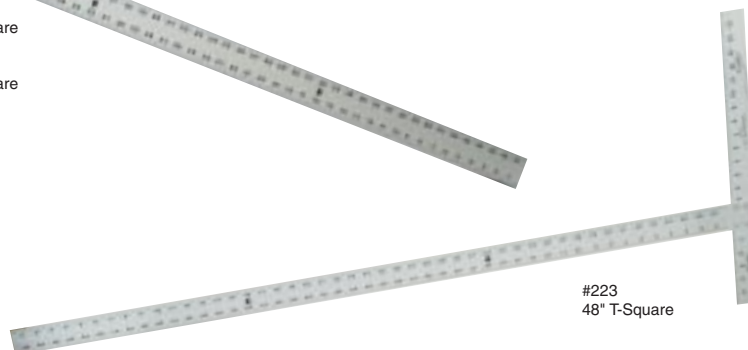

T-Squares

Heavy-duty T-Squares are 3/16" thick aluminum with easy-to-read 1/8" graduations silk screened on the surface. The #223 T-Square is a value version for light-duty use.

T-SQUARES	
Item No.	Description
282 PRO	48" Heavy-Duty T-Square, 3/16" Thick
165 PRO	54" Heavy-Duty T-Square, 3/16" Thick
223	48" T-Square, 1/8" Thick

Drywall Kit

This Drywall Kit is ideal for light-duty home projects. Includes all the tools you need for taping and finishing. Broad knife for tape coat, taping knife for finish coats, sander and sandpaper for perfect joints. This Drywall Kit comes in a reusable plastic mud pan. Step-by-step instructions included.

DRYWALL KIT

Contains hand sander, sandpaper, 10" taping knife, 4½" broad knife and instructions. Packed in sturdy, see-through mud pan.

Item

No.	Description
212	Drywall Kit

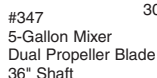

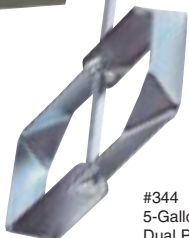

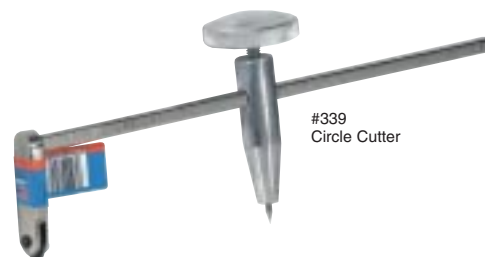

CIRCLE CUTTERS

Adjustable Circle Cutter has carbon steel cutting wheel to cut ½" to 8" diameter circles. Arm is graduated in inches on one side and millimeters on the other. Has crimped end to prevent loss of center point head.

Item

No.	Description
339 PRO	Circle Cutter, Adjustable
231	Circle Cutter with Replacement Blade
281	Replacement Blades for #231, 10/Card

CRIMPER

Corner Crimper sets corner beads fast and easy with a single blow. No nails or screws needed.

Item

No.	Description
338 PRO	1 1/4" Corner Bead Crimper with Rubber Mallet

DRYWALL LIFTERS

These specialty tools save time and make every job easier. Drywall Lifters are a simple design of indestructible material, allowing one person to lift drywall off the floor for installation.

Item

No.	Description
157 PRO	Drywall Boot Roll Lifter
227 PRO	Drywall Toe Lifter

5-GALLON MIXERS

Heavy-duty 5-Gallon Mixers for drywall compound. Mixer heads don't stop short, they reach all the way to the bottom of the bucket. Hexagonal steel shafts fit ½" drills.

Item

No.	Description
345 PRO	Mixer, Twin Propeller Blades, 25" Hex Shaft, Fits ½" Drill
344 PRO	5-Gallon Mixer, Dual Propeller Blade, 30" Hex Shaft, Fits ½" Drill
347 PRO	5-Gallon Mixer, Dual Propeller Blade, 36" Hex Shaft, Fits ½" Drill
342 PRO	Mud Masher, Hand Mixer, 28" Handle

(See Other Mixers on Page 28)

Stilts

Lightweight, aluminum Stilts are perfect for handling walls and overheads where scaffolding and ladders are inconvenient. New Pro-Flex® Leg Bands flex comfortably to fit all leg sizes. Pro-Lite™ Adjustable Stilts adjust fast and easy without tools. Feature dual-spring action to make walking more natural. Stilts have nylon boot straps permanently installed at the factory to prevent accidental loss. Patented Inter-Lok® Bracket for attaching legs—no pins to shear off like other stilts. U.S. Patent #5645515—other patents pending. Other features include adjustable sole and heel plates with rubber sole bottoms. Parts are interchangeable with Dura Stilts. Instruction manual included. Weight limit of 225 lbs.

STILTS

Item No.	Description
132 PRO	18"–30" Pro-Lite Stilts, Pair
133 PRO	24"–40" Pro-Lite Stilts, Pair

Bench

Drywall Bench is manufactured of aircraft aluminum and holds up to 450 lbs. Use it as a walk-up bench, work bench or for scaffolding support. 48" long and 9½" wide with height adjustment from 18" to 30."

Leg adjustment has safety latch to lock legs in place. New latch guard (not shown in photo) gives added safety for accidental latch opening. Bench top has grooves to increase traction, reducing slippage. The #418 Bench folds and is portable, weighing just 35 lbs. Leg extensions include four legs and two additional step bars, allowing height to be increased to 41" and adjusted up to 46½". Legs have 15° angle for increased stability and rubber feet to protect floor surfaces from scratching.
