Red Zone Ready removes all types of food and beverage based stains, including children's fruit drinks.

Contents: One U.S. Quart (.94 Litres)

REDZONE READY Red Stain Remover is a one part, highly effective, food and beverage stain removal process that is designed to alter the structure of stains by removing or making them invisible. It is ideal for use with any stain caused by spilled children's fruit drinks or sports drinks. This product is safe and effective on virtually any stain caused by a common household food or beverage spill. This product is for use with synthetic carpet or fabrics only. Not recommended for natural fabrics. **FOR PROFESSIONAL USE ONLY.**

DIRECTIONS

1. Applying RED ZONE READY is a one step process. Always pretest process for colorfastness in an inconspicuous area.
2. Clean stained area normally prior to application of this product. Take extra vacuum pass to remove as much moisture as possible.
3. Apply Solution liberally to the stained area. Allow 20-30 seconds of dwell time and evaluate results.
4. Allow 20 -30 seconds of dwell time and evaluate results. Many stains are removed simply by extracting the area thoroughly with clear water at this point. If residual discoloration remains, do not extract solutions. Proceed to accelerate activity with heat.
5. Apply heat as accelerator. If using a low pressure, high volume steam generator such as a wallpaper remover, simply allow steam wand to sit on treated area. Check area periodically every 20-30 seconds. If using a steam iron, cover stained area with

a wet, white, cotton towel. Apply steam heat from an iron set at the lowest steam temperature. Lift and move the iron every 20-30 seconds and check area.

6. When the stain has completely disappeared or has light yellow discoloration, completely extract the area with water. Color loss and/or fiber damage can be caused by excessive heat or by not rinsing spot immediately after acceleration by heat. **For problematic carpet fibers, dilute RedZone Ready with equal parts water.**

INDREDIENT DISCLOSURE

Water, Triethanolamine, Sodium Metabisulfite, Sodium Xylene Sulfonate, Isopropanol, C9-11 Alcohols Ethoxylated, Sodium Sulfite, Sodium Sulfate, Diethanolamine.
