

ChemSafe™ Brands Lift & Go Paint Removers

Introducing the **Lift & Go** line of paint removers by **ChemSafe™**. These water-based, high quality paint removers are perfect for every kind of project on virtually any surface! Whether your project is DIY at home or on the job site, **Lift & Go** can get it done!

Lift & Go Lead removes hazardous older coatings like lead paints with ease. The gel emulsifies the old coating, keeping it in a wet state during the removal process, preventing its harmful dust from entering the air. **ChemSafe™ Laminated Paper** and other accessories included under the lid!

Lift & Go PRO is the extra power Professionals need for a variety of job sites. Removes most modern latex, oil, water, and acrylic-based coatings with ease from virtually any surface. **Lift & Go PRO** excels when removing high performance and protective coatings.

Lift & Go Multi is perfect for Do it Yourselfers or Professionals seeking to remove oil, water, acrylic, or latex-based paints from furniture, cabinets, decks, wood, metal, masonry, and more!

FEATURES

- **Removes multiple layers of paint coatings.**
- **Effective on wood, metal, and masonry surfaces.**
- **Contains NO methylene chloride or NMP.**
- **Water-based gel coatings cling to vertical surfaces.**
- **Pair with ChemSafe™ Laminated Paper (included with Lift & Go Lead) to speed the removal process and prevent premature drying.**
