

MUD

Technical Information

Mud Water Spot Remover

Product Description:

Mud is a unique formulation that is abrasive enough to remove deposits, soil, and soap build up from marble and granite without scratching the surface. This non toxic neutral compound is extremely user friendly.

Special Features:

Low odor
Environmentally safe
Abrasive material in Mud easily breaks down to prevent scratching the stone.

Where and When to Use:

Can be used on all types of marble, granite and glass as well as plumbing fixtures. Excellent for shower walls.

Packaging:

32 oz. (.95L) round w/fliptop
8 oz. (in kit)

Storage:

Storage temperature: Store above 32°F (0°C) and below 120°F (49°C)

Directions for use:

- 1) Apply 1/2 oz. of Mud to a damp sponge
- 2) Rub aggressively with a sponge, using straight, short strokes
- 3) Allow to dry for one minute
- 4) Remove Mud using a clean, damp sponge
- 5) Follow up with plus 10 or spray polish

Product Specifications:

Physical State: Thick liquid
Odor: None
Appearance: White
pH: 9-10
